

FOREST SCHOOL

FOREST SCHOOL

IS YOUR SCHOOL THINKING OUTSIDE THE CLASSROOM?

NOVUS Forest School, where learning takes place in the great outdoors. We believe that a child's education should be more than just textbooks and desks. It should be an immersive and dynamic experience that connects them with nature and encourages self-expression and personal growth.

Our Forest School programs are designed specifically for primary schools and primary ages, providing children with hands-on, experiential learning opportunities in a natural environment. By removing the constraints of a traditional classroom, we provide a space where children can explore, discover and create at their own pace.

Our programs are led by qualified Forest School practitioners, who provide guidance and support as children engage in a range of activities such as foraging, tool use, rope work, wildlife exploration and more.

With NOVUS Forest School, children are given the opportunity to take control of their own learning, developing independence and confidence as they explore and discover their surroundings.

"THE TEAM THAT SUPPORTS MY SCHOOL REALLY DO FEEL LIKE PART OF THE STAFF, WHICH IS GREAT."
