SEND

IS THE SOLUTION RIGHT FOR THE CURRENT CHALLENGE?

As schools face the challenge of supporting more and more children with special educational needs and disabilities (SEND), it's crucial to make the most of bit of funding and deliver the best outcomes for the children and their families. NOVUS understands the unique needs of SEND students and is here to help.

With years of experience working with schools, SEND coordinators, and most importantly, the children themselves, NOVUS has developed SEND-specific provisions and products tailored to meet their needs. We work closely with schools to ensure that each child's individual development targets are incorporated into the program and regular meetings are held to track progress and ensure positive outcomes.

Our focused work covers a range of areas, including relationships, emotions, physical and social development, as well as improving self-confidence and communication, delivered through one-to-one sessions, small group work, and even whole-class focused lessons.
